Prefatory Note

ART INDEX is an author and subject index to domestic and foreign art periodicals and museum bulletins. Subject areas indexed include archaeology, architecture, art history, arts and crafts, city planning, fine arts, graphic arts, industrial design, interior design, landscape design, photography and films, and related fields.

The Committee on Wilson Indexes of the American Library Association's Reference and Adult Services Division advise the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years. The Committee as part of its study prepares a list of periodicals, representative of all subject areas included in the Index, for consideration by the subscribers.

Selection of periodicals for indexing is accomplished by subscriber vote. In voting their preferences subscribers are asked to place primary emphasis on the reference value of the periodicals under consideration. They are also asked to give particular consideration to subject balance in order to insure that no important field be overlooked in proportion to overall index coverage.

Suggestions for additions or deletions of titles should be brought to the attention of the Committee in care of The H. W. Wilson Company.

Prehistory Note

THE INDEX is an index and subject index to documents and for-
eign and domestic and numerous illustrations. Subject areas and subjects
archaeology, architecture, art history, and other city planning, the
arts, geographic area, history, and other landscape design,
photography and other.

Acknowledgment

We wish to acknowledge the contribution of Isabel
Wellisz to the indexing in this volume.

D. J. P.

Selection of periodicals for indexing is recommended by subject
area. In some fields, particularly subject areas, are added to those primary
sources on the reference side of the periodicals under consideration.
They are also added to give particular consideration to subject balance
in order to make that no important field be overlooked in preparation to
overall index coverage.

Suggestions for addition or deletion of titles should be brought
to the attention of the Committee in care of The H. W. Wilson Company.

Explanatory Notes

Volume 20 initiates a variety of editorial changes and revisions over the permanent volumes of previous years. These have been incorporated in the following notes of explanation.

ARRANGEMENT

Author and subject entries are listed in one alphabet. No title entries are made. Division of major subject headings (such as **ART**) are filed within the following sections: (1) General subdivisions (**ART—Themes**), (2) Chronological subdivisions (**ART—17th century**), (3) Geographical subdivisions (**ART—Spain**), (4) Inverted headings (**ART, Italian**), (5) Phrase headings (**ART and state**).

HEADINGS

Firm names used as headings in this volume are listed under one of the following subject headings: **ARCHITECTURAL** firms, **DESIGN** firms, **INDUSTRIAL** design firms, **INTERIOR** design firms, **LANDSCAPE** architecture firms, and **PLANNING** firms.

Headings for museums and art galleries have been made as subheads under cities in most instances, e.g., **NEW YORK (city)—Museum of modern art**. A complete list of such headings used in the index can be found under **MUSEUMS** and **art galleries** subdivided by country. Also, a complete list of headings subdivided by a country can be found under the name of the country, e.g., "**UNITED STATES**. *See also* Advertising art—United States." Most material on country houses and castles can be found under the headings **COUNTRY** houses and **CASTLES** subdivided by country with cross references from the names of specific houses and castles. Headings for African art have been set up using nationalistic divisions with references from specific ethnic group, e.g., **ART, Ghanaian**, with reference from **ASHANTI** art.

OFFICES and **SHOWROOMS** have been subdivided by country for the first time. **STATIONS** and **TRANSIT** systems are now used as standard subdivisions under names of cities, and **TERMINALS** and **SUBWAYS** are no longer used as subheadings.

Beginning with this volume, all titles or parts of titles which have been supplied will be found to be enclosed in brackets.

ILLUSTRATIONS

Works of art (up to ten) are listed in a note after the artist entry when illustrations accompany an article. If the number of illustrations of an artist's work in an article exceeds ten and if they are not itemized, the number of illustrations is given in the entry under the artist's name, e.g. 15 il

EXPLANATORY NOTES

REFERENCES

See references lead from terms not used as headings to those under which entries are to be found. *See also* references lead to related subjects. Cross references are made to inverted headings from the uninverted form. It is possible to find all headings subdivided by "French" by consulting the cross references beginning "French," e.g. "French bronzes. *See* Bronzes, French."

Explanation:

The first entry lists a review of an exhibit of the work of Lichtenstein at the Leo Castelli gallery, New York. The exhibition review is by G. Battcock; and it can be found in volume 6 of **Art and Artists** on pages 58 and 59 of the June, 1971 issue. An illustration of a work by Lichtenstein, "Mirror no 8," accompanies the text.

The second entry lists a review of the book, **Roy Lichtenstein**, by D. Waldman. The book review is by B. Denvir; and it can be found in volume 16 of **Art International** on pages 64 and 65 of the February, 1972 issue.

The last entry lists an illustration of a lithograph by Lichtenstein entitled, "Haystacks no 5," and dated 1969. It can be found in volume 33, number 1 of the **Yale University Art Gallery Bulletin** on page 28 of the Summer, 1971 issue. There is no text accompanying the illustration.
